HERE IS SOMETHING NEW IN HEMEROCALLIS!

A collection that was bred with the idea of producing blossoms that are not only beautiful and sun resistant, but which flower arrangers may depend upon to remain open late in the evening. After our twenty years of hybridizing thousands of Daylilies, we have selected a few of the very best for naming.

-----

BLOND BUTTERFLY - (1955) Evergreen - 36" - Very pale yellow, 5" blossom with rounded 2" petals, and narrow twisted sepals. The 36" stalk has numerous long graceful branches. The daint blossoms withstand sun and wind. Open till after eight p.m. Blooms midseason, then repeats. \$12.50 each.

BUDDY SLAUGHTER - (1955) Evergreen - 20" - This semi-dwarf has light cinnamon sepals and petals edged with yellow. Buddy blooms early and once or twice more during the summer. Good branchings. Open till eight or later in the evening. \$7.50 each.

CARMEL - (1955) Evergreen - 30" - Very unusual are Carmel's clear yellow sepals whose petals are the same color delicately overcast with tan. The 2" petals stand out boldly, while the sepals recurve. The size of the flower is from 7" to nearly 8" across, and stands up crisply under sun and wind. It is a repeat bloomer and remains open till about 10 p.m. \$15.00 each.

FRANCES WYNN - (1952) Evergreen - Spectacular 6" Bicolor, with brown petals and clear yellow sepals, all recurved loosely and gracefully. Open till 10 p.m. Very striking in flower arrangements. Frances Wynn is a splendid central Florida lily; it may not do so well in the north. Requires some shade at noon. \$7.50 each.

## THE HISTORY OF THE UNITED STATES

The history of the United States is a story of growth and development. It begins with the first settlers who came to the continent, and continues through the years of exploration, settlement, and the struggle for independence. The story is one of a people who have built a great nation from a small group of pioneers.

### CHAPTER I

The first settlers who came to the continent were the Indians. They were followed by the explorers, and then by the settlers. The story of the United States is a story of a people who have built a great nation from a small group of pioneers.

JODY - (1955) Evergreen - 24" - Deep wine-red  $4\frac{1}{2}$ " blossom having an eye zone of deeper color, and green-yellow throat. Pales a little in the sun, but does not wilt or curl. This lofty lily makes a splendid border plant, the leaves arching gracefully. Midseason and repeat. 7.50 each.

LUCILE - (1952) Evergreen - 36" - Excellent, tall, pale, yellow self of the star type. 5" bloom, sun resistant, repeat bloomer, fragrant and long lasting, the bloom holding till about 10 p.m. \$12.50 each.

MADGE VAUGHAN - (1952) Evergreen - 37" - A stately beauty - pale yellow with faint tan halo on petals. 6" bloom, wide petals and sepals; sun resistant, strong growing, repeat bloomer, blossoms lasting till about 10 p. m. Excellent for flower arrangements. Madge Vaughan has been satisfactorily tested in several states. This makes a wonderful breeding lily; its best traits seem to be dominant. \$25.00

RUTH BAYLESS - (1952) Evergreen - 26" - Has all the good qualities of "Lucile" - The blossom is buff-yellow; is generously diamond dusted and the sepals and petals more recurved. Ruth Bayless remains open until 10 o'clock in the evening. \$12.50 each

SUSAN WYNN - (1952) Evergreen - 36" - Lovely, soft, clear yellow,  $4\frac{1}{2}$ " blossom; sun resistant. Have grown Susan Wynn for ten years; it usually blooms eight months of the year. Much of this bloom is in the winter. It has not been tried outside of central Florida. In the north this abundant bloom might concentrate in the summer. \$7.50 each.

UNNAMED SEEDLINGS - Evergreen - Tested seedlings that will not be named. All are superior plants. Most of them remain open late in the evenings and some of them well past midnight. Colors: Yellow, Orange, Red, Wine-Plum, Bicolor, Pastels, Peach-Salmon. \$1.00 each, or six for \$5.00.

Parcel Post paid up to 5th zone. No order for less than \$5.00, please.
